DYNATECT MANUFACTURING, formerly known as A&A Manufacturing, has over 65 years of experience in dynamic equipment protection manufacturing. Headquartered in New Berlin, Wisconsin, Dynatect's global coverage includes seven manufacturing plants and two distribution locations. Dynatect designs and manufactures a complete line of components to protect equipment and people. Their range of products includes protective covers, cable and hose carriers, elastomer components and mechanical motion control. With tens of thousands of worldwide clients, and a library of more than 500,000 customized products, Dynatect has the broadest product offering to solve applications. Whether you need a simple off-the-shelf component, an engineered assembly, or a complete, turnkey dynamic solution, Dynatect has the capabilities. Their knowledgeable customer service and sales people can help you define how Dynatect can design and deliver exactly what you need to keep moving forward.

INDUSTRIES SERVED

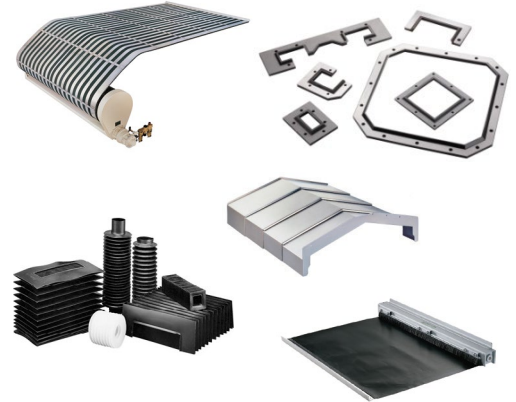

- Machine Tool & Automation
- Maintenance, Repair & Operations
- Medical
- Oil & Gas
- Construction & Agriculture
- Transportation

BRANDS/PRODUCT LINES

- **GORTITE™** Protective Covers & Roll Up Doors
- **GORTRAC™** Cable & Hose Carriers
- **POLYCLUTCH™** Precision Slip Clutches
- **LSI™** Precision Ground Ball Screws
- **RO-LAB™** Molded Elastomer Products

DIMPLEX THERMAL SOLUTIONS is the leading chiller manufacturer of process cooling equipment under the Koolant Coolers and Riedel brands. Located in Kalamazoo, Michigan, Koolant Coolers builds quality industrial-grade chillers and reliable product partnerships. Our chillers are designed to integrate with your application or act as a standalone unit, providing continuous heat transfer of your downtime sensitive applications.

Koolant Coolers has over 60 years of industry experience with chillers, from small 1/8th ton units to over 500 tons of cooling. Our product line has been designed by seasoned engineer professionals with the intention of being energy efficient, maintainable and able to integrate with your application setup.

ROLLON®
LineaEvolution

WWW.ROLLON.COM/US/EN

ROLLON is a leading manufacturer of linear motion systems, guides and linear actuators. Our principal products include ROLLON's Compact Rail linear guide, Telescopic linear guides and our ActuatorLINE™, and Uniline family of actuators, that are designed to meet the requirements of engineers involved in machine design applications in the primary fields of industrial automation and robotics.

ROLLON Group is a global company with headquarters in Milan, Italy and significant operations in Germany, France and with a growing presence in the US.

ROLLON Corp. has a dedicated engineering staff located throughout the USA and servicing all of North America. Our engineers are experienced in applications across a variety of industries including plant assembly, packaging machinery design, industrial automation, machine tools and robotics, semiconductor, medical and pharmaceutical plus other capital equipment such as construction and specialty vehicles, aircraft, and passenger trains.

ROLLON has a demonstrated capability in creating engineered solutions and custom products for OEM's and machine builders everywhere to solve unique and difficult applications.

WWW.LNS-AMERICA.COM

LNS TURBO SYSTEMS provides the industry's most experienced applications and technical service staff. With over 40 years of experience and proven performance, LNS is your single source supplier for engineered solutions supported by over 800 employees worldwide who stand behind everything we sell.

Chip conveyors and coolant management systems to eliminate bottlenecks and reduce coolant costs.

High-pressure systems to extend tool life and reduce cutting cycle time.

Mist collectors to improve worker safety and job performance.

Only LNS gives you this range of products along with the industry's most experienced applications and technical service staff. And only LNS can integrate and support all of these to maximize your productivity and ROI.

Custom Components

Engineered Solutions

Custom Components is a professional outsourced sales organization engaged in the sales and marketing of engineered products to the industrial and OEM market in Ohio, Kentucky and Indiana.

Custom Components connects businesses by bringing the design and manufacturing resources of the industry leading companies we represent to serve the unique needs of our customers.

Custom Components partnerships enable us to properly identify the critical application requirements and design a solution that delivers the greatest value, ensuring a customized engineered solution for every customer.
